

Transcript of results: Bachelor's programme

Morgan SANTALUCIA

Student number: 42200262
 Born on March 28th, 2004 in Montélimar (France)

Courses	French Marks (/20)	ECTS Credits	ECTS Grades
3EUS1AUT Control Command of Systems	12,05	5	C
3EUS1ENE Electrical Engineering	15,3	5	A
3EUS1MAT Mathematics for Engineers	17,11	5	A
3EUS1MSD Solid Mechanics	18,08	5	A
3EUS1SMC Mechanical Systems	13,6	5	B
3EU1SME6 Professional & Language skills	16,36	5	A
3EUS2CTI Sensors & Signal Processing	15,22	5	A
3EUS2ELC Elective Course Unit-Interdisciplinary project	16,41	5	A
3EUS2OIN Computer & Mathematical tools for Engineers	17,6	5	A
3EUS2THM Monophasic Hydraulic & Heat Transfers	13,78	5	B
3EUS2APP Automatic Control & Electronics	16,18	5	A
3EU2MP6 Professional & Language skills	15,66	5	A
RESULT OF ADMISSION / First session	15,61		
YOUR FRENCH GRADE POINT AVERAGE	15,61		

AS RESULT: PASS

Date: 13/04/2026

CERTIFIED BY: Karine BUGUET (Departmental Coordinator)

École nationale supérieure de l'énergie, l'eau et l'environnement

21 avenue des Martyrs - CS 90624 - 38031 Grenoble Cedex 1

Transcript of results: 1st-year master's programme "Signal and Image Processing, Communication Systems, Multimedia"

Morgan SANTALUCIA

Student number: 42200262
Born on March 28th, 2004 in Montélimar (France)

Fall semester courses	French Marks (/20)	ECTS Credits	ECTS Grades
Signal Processing	15,75	6	A
Automatic Control, Image Processing & Image Processing	14,33	6	B
Electronic for the transmission of the information	18,17	6	A
Data Science	15	6	A
Professional & Language skills	16,6	6	A
AVERAGE FIRST SEMESTER	15,97		
YOUR FRENCH GRADE POINT AVERAGE	15,97		

AS RESULT: PASS

Date: 13/04/2026

CERTIFIED BY: Karine BUGUET (Departmental Coordinator)

Spring semester courses	ECTS Credits
Sustainable Engineer	5
Telecommunication & Signal processing Hardware Implementation	5
Advanced signal processing	5
Computer Science	5
Professional & Language skills	5
Internship	5

EUROPEAN MARK: in order to make easier academic transfer of credits obtained in the host institution, INP Grenoble uses ECTS grading (European Credit Transfer System).

For each course, there is an examination based on a scale from 0 to 20 (maximum). The average required to validate the semester or the academic year is 10/20.

The number of ECTS (European Credit Transfer System) Credits is given. In this credit system, the convention is that one "standard" academic year corresponds to 60 Credits. It will serve as a valuable guide-line for potential visiting students. However, they may very well consider, in agreement with their academic advisor in their home university, taking less than 60 Credits (or less than 30 Credits for one semester) to compensate for the extra difficulties related with the difference in language, teaching style, mathematical level...)

ECTS marks: A, B, C, D, E, F, FX. INP Grenoble ranks among the best French "Grandes Ecoles": a system of highly selective public engineering schools authorized to deliver the "Diplôme national d'ingénieur". The "diplôme d'ingénieur" (master's degree in engineering) is awarded after five years of study (300 ECTS credits) following the obtaining of a secondary diploma (the baccalauréat). The first two years are spent at preparatory classes (undergraduate programme) and followed by a competitive national examination to enroll in the Grandes Ecoles. Further to the high level of recruitment of French students (competitive entrance examination strictly limited annually by the Board of each institution in connection with the French Ministry), our students are in the 10% top ranking of French Baccalauréat.

A very few students can apply on the strength of their qualifications for the first or second year of the engineering cycle (depending on their degree) and obtain the school's engineering diploma.

- A: top 10 % (outstanding performance)**
- B: next 25 % (above the average standard)**
- C: next 30 % (generally sound work, minors errors)**
- D: next 25 % (fair, with significant shortcomings)**
- E: last 10 % (meets the minimum criteria)**
- FX: fail (some more work necessary)**
- F: fail (considerable work is required)**
